

HOME 01

603 Prince Drive

Keith Sumner Homes and Land

A special thanks to Ken and Jay Wilson, who have been the world's greatest customers. With a handful of pictures and 2-3 personal requests, this house built itself. This house was finished in 2016.

Description

The Prince Drive home sits on the crystal-clear waters of Lake Blue Ridge, Georgia's most picturesque mountain lake. The 3,300 acre lake and its surrounding areas offer campsites, boat ramps, a full-service marina, public swimming, and picnic areas. Lake Blue Ridge is 11 miles long and has 65 miles of shoreline. Only 25% is developed. The lake is only minutes from the popular downtown tourist area of Blue Ridge. This beautiful 4,300 square foot home has almost 3,500 square feet of outdoor living space. It has 5 bedrooms and 5 bathrooms, some with stone waterfall showers. Features of this home include stainless steel appliances, three fireplaces, second kitchen in the basement entertaining area, and expansive windows. The use of rough sawn lumber and drywall exemplify the collaboration of rustic and elegant. The home's exterior is a combination of live edge siding, barn wood, and boulder size stack stone. The color of the siding was specifically formulated to match the Tennessee fieldstone used on the house.

The front gable was timber framed with charismatic hammer truss style construction. Six hundred feet of glass separate the interior and exterior living areas, so Lake Blue Ridge is always in view.

Highlights

- 4,300 square feet
- Five bedrooms
- Two car garage
- Bonus room
- Live edge siding
- Exquisite landscaping
- Media room
- Tiki bar
- 3,500 square feet of outdoor living

Directions

From McDonald's in Blue Ridge, drive north on Hwy 515 3.9 miles and turn right on to Georgia Hwy 60. Go 0.5 miles and turn left on to Old Hwy 76. Travel 1.4 miles and turn right on to Church Street. Continue 0.1 miles and turn left on Prince Street. Take a right on Prince Drive at the top of the hill. Follow signs to home at the end of the street on left.
