## Coleman Log Homes

### Description

Perched high in the Aska Adventure Area, this home offers soaring views of the Blue Ridge mountains and Lake Blue Ridge. The Atlanta-based owners created a rustic, yet elegant living space that blends perfectly with the high, mountain landscape. The no-threshold entry lures you into a blended kitchen, dining and living space. The handcrafted cedar logs provide a unique architectural focal point, juxtaposed against an equally impressive backdrop. Designed with entertaining in mind, this three level home features five master suites, a custom wet bar, workout room and media wall. Bi-fold glass doors set an indelible boundary between dining room and deck for a seamless extension of space. Convenient access to the covered decks provide a perfect panoramic view of the mountain slopes. The lower level showcases even more intimate appeal with a custom wet bar, gas-fireplace, media wall and a second outdoor gathering space featuring a hot tub and gas firepit.
